

## TEST SETUP PHOTOGRAPHS & EUT PHOTOGRAPHS

### Test Setup Photographs

LEFT- CHEEK TOUCH

LEFT-TILT 15°

RIGHT- CHEEK TOUCH

RIGHT-TILT 15°

Body Back 10mm

Body Front 10mm

Edge 1(Top)

Edge 2(Right)

Edge 3(Bottom)

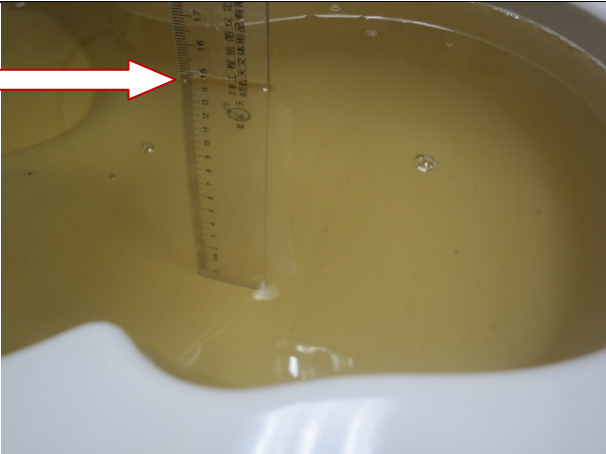

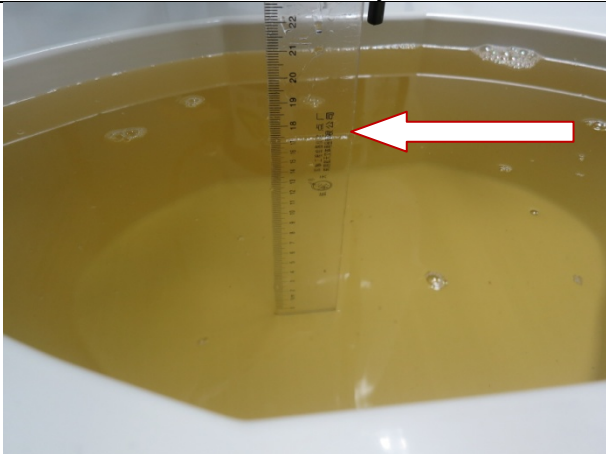

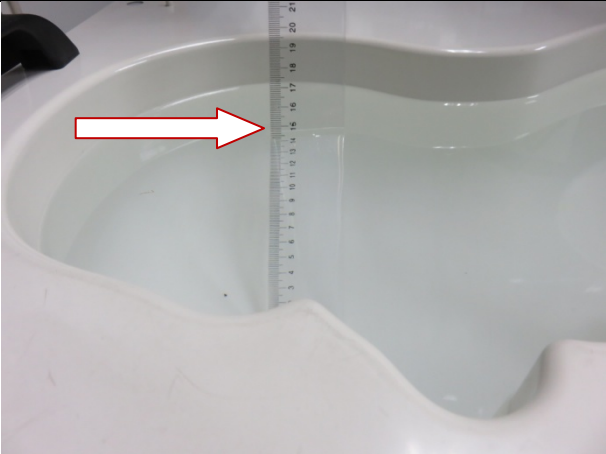

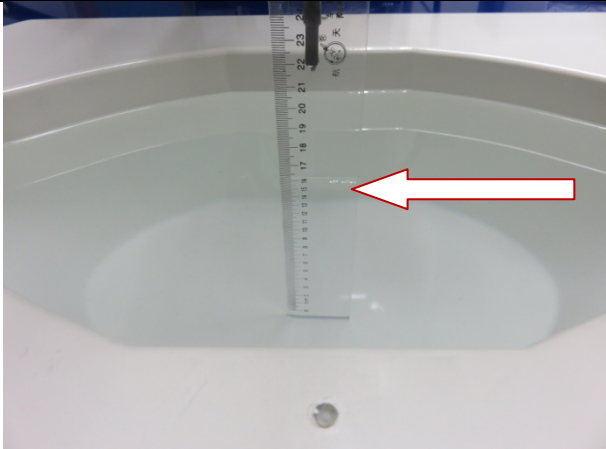

Edge 4(Left)

## DEPTH OF THE LIQUID IN THE PHANTOM—ZOOM IN

Note : The position used in the measurement were according to IEEE 1528-2013

<p>850MHz head</p>  A photograph showing the liquid level in the head region of a phantom at 850MHz. A vertical ruler is placed against the side of the phantom. A red arrow points to the liquid surface, which is at approximately 15.5 cm on the ruler.	<p>850MHz body</p>  A photograph showing the liquid level in the body region of a phantom at 850MHz. A vertical ruler is placed against the side of the phantom. A red arrow points to the liquid surface, which is at approximately 19.5 cm on the ruler.
<p>1900MHz head</p>  A photograph showing the liquid level in the head region of a phantom at 1900MHz. A vertical ruler is placed against the side of the phantom. A red arrow points to the liquid surface, which is at approximately 15.5 cm on the ruler.	<p>1900MHz body</p>  A photograph showing the liquid level in the body region of a phantom at 1900MHz. A vertical ruler is placed against the side of the phantom. A red arrow points to the liquid surface, which is at approximately 19.5 cm on the ruler.
<p>2450MHz head</p>  A photograph showing the liquid level in the head region of a phantom at 2450MHz. A vertical ruler is placed against the side of the phantom. A red arrow points to the liquid surface, which is at approximately 15.5 cm on the ruler.	<p>2450MHz body</p>  A photograph showing the liquid level in the body region of a phantom at 2450MHz. A vertical ruler is placed against the side of the phantom. A red arrow points to the liquid surface, which is at approximately 19.5 cm on the ruler.
